Not as good as the other pack at the same price. I bought this before I had looked at the other packs in game. The Fenrir pack costs the same but it has much more valuable parts that you can sell, it has 2 purple and 10 blue and the Bloodhound only has 15 blue parts...no epic. This is so lopsided.. A cool educational game for children that adults won't mind playing with them. Has enjoyable music, art, and a unique sense of humor.. Fun little game well worth the cost of admission. Extremely fun for the time I've played. My only suggestions would be to fix some bugs and add more customization. An amazingly well made game so far! Keep up the good work Membrane Studios!. This game does NOT work properly when too many viewers..... Garbage. The lag comes from the chat being omnipresent from what I can tell, and with no way of disabling it of course. Paying for this should be illegal.

I play that while waiting for the matchmaking in Team Fortress 2 to complete. A short Visual Novel about a nymph called Pumpkin whom is in love with her mistress. Help her satisfy her yearning by finding the ingredients for the magic love potion. ♡

By playing this game you will come across some really nice art style and scenery, fantasy characters and soothing bgm.

+refreshing graphics

+partially funny

+there are multiple endings

Cons: Of short duration, therefore; fanservice \geq plot.

I honestly would suggest purchasing it while on sale.. Do not want. it's actually a lot more fun than most of these hipster games out there.

. Expecting a Summer Sale - Paradox Interactive increased base prices for most if not all their games.

Anything morally and ethically wrong with it?

Vote with your Money.. Excellent Puzzle game at the moment.. Rubiks Cube + Toy Soldiers - Any of the fun that either of those things offer by themselves.
